About the Authors

Alison Barrows has authored or co-authored books on Windows, the Internet, Microsoft Access, WordPerfect, Lotus 1-2-3, and other topics. In addition to writing books, Alison writes and edits technical documentation and training material. In real life she hangs out with her “guys” — Parker, 6, and Mason, 4, and Evan, 2 — and tries to carve out some time to practice yoga. Alison lives with her family in central Massachusetts.

Joe Stockman has been using Microsoft Access since its initial release and has authored or co-authored several books on Access. He’s also developed courseware in Access and VBA and has been on the speaker circuit for Microsoft Access seminars. Joe works as a consultant and software designer for Facilities Survey, Inc. in Pittsburgh, Pennsylvania. He also enjoys music, cooking, and anything else that lets him express his creative side.

Allen G. Taylor is a 30-year veteran of the computer industry and the author of over 20 books, including *SQL For Dummies*, *SQL All-in-One For Dummies*, and *Database Development For Dummies*. He lectures nationally on databases, innovation, and entrepreneurship. He also teaches database development through a leading online education provider. Allen is president of Goldfinger Global, LLC and can be reached at allen@goldfingerglobal.com.

Dedication

To Matt, Parker, Mason, and Evan. —Alison Barrows

To Mom, as always. —Joseph C. Stockman

To Marguerite Shelton, who gave me my life's greatest gift. —Allen G. Taylor

Authors' Acknowledgments

We would like to acknowledge the care of Kyle Looper, Blair Pottenger, Kathy Simpson, and all the others who shepherded this book through the editing and production process, as well as all the folks listed on the Publisher's Acknowledgments page who worked on this book. (It takes ALL of these people, not just those of us on the cover.) We'd also like to thank the folks at Microsoft for making Access a wonderful tool to create robust database applications.

Alison thanks Dotty, Christy, and Matt for taking great care of my guys so I can get work done. Matt (also known as Honey) gets special thanks as my hardware guru.

Joe thanks his mom and dad, for always encouraging but never pushing. Also thanks to Robin for her support and understanding of the time it took to finish this project.

Allen thanks all the folks at Wiley who made this book possible, but especially Kathy Simpson and Blair Pottenger, project editors, and Kyle Looper, acquisitions editor.

Publisher's Acknowledgments

We're proud of this book; please send us your comments at <http://dummies.custhelp.com>. For other comments, please contact our Customer Care Department within the U.S. at 877-762-2974, outside the U.S. at 317-572-3993, or fax 317-572-4002.

Some of the people who helped bring this book to market include the following:

Acquisitions and Editorial

Project Editors: Kathy Simpson,
Blair J. Pottenger

Acquisitions Editor: Kyle Looper

Copy Editor: Kathy Simpson

Technical Editor: Brian Underdahl

Editorial Manager: Kevin Kirschner

Editorial Assistant: Annie Sullivan

Sr. Editorial Assistant: Cherie Case

Contents at a Glance

.....

Introduction	1
Book 1: Getting Started with Access 2013	7
Chapter 1: Introducing Access 2013	9
Chapter 2: Getting Started, Getting Around	17
Chapter 3: Designing Your Database the Relational Way	37
Book II: Tables for Storing Your Data	65
Chapter 1: Creating and Modifying Tables	67
Chapter 2: Refining Your Table in Design View	105
Chapter 3: Sorting, Finding, and Filtering Data in a Datasheet	121
Chapter 4: Importing and Exporting Data	137
Chapter 5: Avoiding “Garbage In, Garbage Out”	157
Chapter 6: Relating Your Tables and Protecting Your Data	175
Book III: Queries (Or Getting Information from Your Data)	187
Chapter 1: Creating Select Queries	189
Chapter 2: Letting Queries Do the Math	221
Chapter 3: Doing Neat Things with Action Queries and Query Wizards	255
Chapter 4: Viewing Your Data from All Angles Using Crosstabs	277
Book IV: Forms for Editing Data	287
Chapter 1: Designing Custom Forms (and Reports)	289
Chapter 2: Jazzing Up Your Forms (and Reports)	313
Chapter 3: Creating Smarter Forms	339
Chapter 4: Doing Calculations in Forms and Subforms (and Reports)	365
Book V: Reporting in Words and Pictures	385
Chapter 1: Creating and Spiffing Up Reports	387
Chapter 2: Printing Beautiful Reports	415
Chapter 3: Creating Charts and Graphs from Your Data	435

<i>Book VI: Automation with Macros</i>	457
Chapter 1: Making Macros Do the Work.....	459
Chapter 2: Making Macros Smarter	477
<i>Book VII: Database Administration</i>	497
Chapter 1: Database Housekeeping.....	499
Chapter 2: Sharing the Fun: Managing Multiuser Access	511
Chapter 3: Securing Your Data.....	523
<i>Book VIII: Programming in VBA</i>	535
Chapter 1: What the Heck Is VBA?.....	537
Chapter 2: Writing Code.....	557
Chapter 3: Writing Smarter Code.....	581
Chapter 4: Controlling Forms with VBA.....	605
Chapter 5: Using SQL and Recordsets.....	629
Chapter 6: Debugging Your Code	641
<i>Book IX: Going Beyond Access</i>	651
Chapter 1: Automation with Other Office Programs	653
Chapter 2: Using Access As a Front End to SQL Server	671
Chapter 3: Using Access with SharePoint.....	685
<i>Appendix: Installing Microsoft Access</i>	709
<i>Index</i>	717

Table of Contents

.....

<i>Introduction</i>	1
About Access 2013 All-in-One For Dummies	1
Foolish Assumptions	2
How This Book Is Organized	3
Book I: Getting Started with Access 2013	3
Book II: Tables for Storing Your Data	3
Book III: Queries (Or Getting Information from Your Data)	4
Book IV: Forms for Editing Data	4
Book V: Reporting in Words and Pictures	4
Book VI: Automation with Macros	4
Book VII: Database Administration	4
Book VIII: Programming in VBA	4
Book IX: Going Beyond Access	4
Appendix: Installing Microsoft Access	5
What You Don't Have to Read	5
Icons Used in This Book	5
Conventions Used in This Book	6
Where to Go from Here	6

Book 1: Getting Started with Access 2013..... **7**

Chapter 1: Introducing Access 2013	9
Why Use a Database?	10
Plan, Plan, Plan	10
The Six Types of Access Objects	11
Tables for storing your data	11
Queries for selecting your data	12
Forms for editing and displaying your data	12
Reports for printing your data	13
Macros for saving keystrokes	14
Modules for writing your own programs	15
Essential Database Concepts	15
Chapter 2: Getting Started, Getting Around	17
Running Access	17
Opening a Database	19
Opening oldies	21
Saving in a different version	21
I have that open already!	21
Creating a sample database from a template	21

Making Friends with the Access Window.....	22
The Ribbon	23
The Quick Access toolbar.....	24
Introducing Mission Control: The Navigation Pane.....	25
Choosing how database objects are grouped.....	26
Choosing size and details for Navigation Pane objects	27
Sorting objects in the Navigation Pane.....	29
Searching for an object	29
Viewing Objects in Your Database.....	29
Viewing lots of objects at the same time	30
Switching views.....	30
Creating, Deleting, Renaming, Copying, and Printing Objects.....	31
Introducing Backstage View.....	32
Using Wizards	33
Getting Help.....	34
Saving Time with Keyboard Shortcuts	34

Chapter 3: Designing Your Database the Relational Way37

What Are Tables, Fields, and Keys?	37
Data types	38
Primary key fields for your tables	40
What Are Relationships?	40
How relationships work.....	41
One-to-many relationships	42
One-to-one relationships.....	43
Many-to-many relationships.....	44
Designing a Database	46
Identifying your data	46
Eliminating redundant fields	47
Organizing fields into tables.....	47
Adding tables for codes and abbreviations.....	51
Choosing primary keys for each table	51
Linking your tables	53
Refining your links	54
Seeing what's in a name	55
Cleaning up the design.....	56
Choosing Field Types.....	57
Choosing between Text and Yes/No fields.....	57
Choosing between Short Text and Long Text fields.....	57
Choosing between Text and Number (or Currency) fields	58
Storing pictures and other files.....	59
Storing names, money, codes, and other stuff.....	59
Storing Single Facts	60
Creating a Database	61
Creating a database from scratch.....	61
Creating a new database from a template	63

Book 11: Tables for Storing Your Data 65

Chapter 1: Creating and Modifying Tables 67

Viewing Your Tables	68
Creating the First Table for Your Data.....	70
Creating a new table using Datasheet view	70
Entering data and creating fields	71
Choosing field names	72
Changing a field name	73
Saving your table	73
Working with Tables and Fields in Your Database	74
Finding other ways to create a table	74
Starting with table templates (aka Application Parts).....	75
Creating Fields	76
Creating fields by clicking a button.....	77
Quick-starting your table with field templates.....	78
Working with a Datasheet Full of Data.....	80
Looking at a datasheet	80
Navigating the data.....	81
Adding and Editing Records.....	82
Using keystrokes to enter data automatically.....	83
Editing the data you have	84
Adding calculated fields to tables.....	85
Entering and editing hyperlinks.....	86
Using the Attachment data type	89
Deleting records.....	91
Entering special characters	91
Checking Your Spelling.....	92
Using AutoCorrect for Faster Data Entry.....	94
Formatting a Datasheet.....	96
Formatting a field	97
Changing the font.....	97
Taking advantage of Rich Text.....	97
Changing gridlines and background color.....	98
Rearranging columns in a datasheet	99
Changing column width	99
Changing row height.....	100
Inserting and deleting columns.....	100
Hiding columns	101
Freezing columns	101
Changing default formatting for new tables	101
Taking Advantage of Subdatasheets	101
Adding a Total Row to the Datasheet	103

Chapter 2: Refining Your Table in Design View	105
Creating Tables in Design View	105
Refining Your Table in Design View	107
Using the Caption property	109
Adding a field	109
Copying a field	109
Moving a field	110
Deleting a field	110
Choosing a data type	110
Formatting Fields with Field Properties	113
Formatting Number and Currency fields	113
Setting the field size	115
Formatting Date/Time fields	116
Formatting Text fields	116
Defining the Primary Key	117
Indexing Fields	118
Printing Table Designs	119
Chapter 3: Sorting, Finding, and Filtering Data in a Datasheet	121
Sorting the Rows of a Datasheet	121
Finding (and Replacing) Data	123
Exploring the Find and Replace dialog box	124
Replacing the data you find	125
Filtering a Datasheet	125
Understanding filtering basics	126
Using different types of datasheet filters	127
Filtering with quick filters	128
Filtering by selection	129
Filtering multiple fields	130
Filtering with Advanced Filter/Sort	132
Chapter 4: Importing and Exporting Data	137
Cutting, Copying, and Pasting	137
Using the Office clipboard	139
Cutting and pasting small to mediumish amounts of data	140
Moving data from Excel to Access	141
Importing or Linking to Data	142
Making data available	142
Understanding what applications are compatible with Access	143
Getting external data	144
Importing text or spreadsheet data	146
Importing with the Import Spreadsheet and Link Spreadsheet wizards	149
Getting contacts from Outlook into Access	150
Managing links	151
Cleaning up your imported data	152
Running and scheduling saved imports	153

Getting Data from Another Access Database.....	153
Getting Data Out of Access.....	154
Using Access Data in a Word Mail Merge.....	156

Chapter 5: Avoiding “Garbage In, Garbage Out”157

Finding the Right Tool to Keep Garbage Out.....	158
Using Input Masks to Validate and Format Data	159
Using the Input Mask Wizard	160
Creating an input mask manually	162
Creating a Lookup Field.....	164
Using the Lookup Wizard.....	165
Knowing when to allow multiple selections.....	168
Modifying the lookup list.....	170
Validating Data As It’s Entered	170

Chapter 6: Relating Your Tables and Protecting Your Data175

Creating Relationships and Protecting Your Data with Referential Integrity.....	177
Deciding on the best path to take.....	178
Opening the Relationships window.....	179
Adding tables to the Relationships window.....	179
Setting referential integrity between two tables.....	180
Editing and deleting relationships.....	181
Creating Referential Integrity with Many-to-Many Relationships	182
Printing the Relationships Window.....	184

Book III: Queries (Or Getting Information from Your Data)..... 187

Chapter 1: Creating Select Queries.....189

Understanding Types of Queries.....	190
Creating a Query in Design View	191
Creating a Query with the Simple Query Wizard.....	194
Viewing Your Query	197
Using Query Design View.....	198
Deciphering Design view.....	198
Working with tables in Design view.....	201
Introducing the query design grid.....	201
Navigating Design view	202
Displaying or hiding table names	202
Taking Tips on Creating a Query.....	202
Adding tables to the query	203
Inserting fields into a design grid	203

Editing a Query	204
Sorting a query	205
Viewing top values	205
Hiding fields	206
Changing the format of a query field	206
Limiting Records with Criteria Expressions	207
Querying by example	207
Using dates, times, text, and values in criteria	208
Using operators in criteria expressions	208
Using multiple criteria	210
Using lookup fields in criteria	211
Creating queries with multivalued lookup fields	212
Working with Multiple Related Tables	213
Joining tables in Design view	214
Choosing the type of join and setting join properties	215
Working with Query Datasheets	217
Using the query datasheet to edit data	217
Creating AutoLookup queries	
to fill in data automatically	218
Saving Queries	219

Chapter 2: Letting Queries Do the Math 221

Doing Calculations in Queries	221
Writing Expressions in Access	224
Using operators in expressions	224
Using field names in expressions	226
Using functions in expressions	227
Using Expression Builder	228
Getting help with functions	230
Entering text in < and > brackets	231
Nesting functions	232
Going beyond Basic Arithmetic	232
Formatting calculated numbers in queries	233
Avoiding problems with null values	236
Performing Date and Time Calculations	238
Using literal dates and times in expressions	239
Using the Date/Time functions	239
Manipulating Text with Expressions	242
Adding spaces to text expressions	242
Using the Access Text functions	243
Writing Decision-Making Expressions	243
Making comparisons in If()	244
Combining comparisons	245
To tax or not to tax?	246
Testing for Empty Fields	248
Sorting by Name or Company	248
Creating Flexible Parameter Queries	249
Working with Totals, Subtotals, Averages, and Such	252
Calculating subtotals in a query	254
Filtering records based on calculated fields	254

Chapter 3: Doing Neat Things with Action Queries and Query Wizards 255

- Creating Action Queries..... 255
 - Recognizing the dangers of the Run button 256
 - Creating action queries safely..... 257
- Changing Data with Update Queries 258
- Creating New Tables with Make-Table Queries..... 262
- Moving Data from One Table to Another with Append Queries 265
- Deleting Lots of Records with Delete Queries 267
- Finding Unmatched Records with a Wizard..... 270
- Finding Duplicate Records 272

Chapter 4: Viewing Your Data from All Angles Using Crosstabs . . . 277

- Aggregating Data in a Crosstab Query..... 277
- Using the Crosstab Query Wizard 278
- Creating a Crosstab Query in Design View..... 282
- Modifying a Crosstab Query 284
 - Using criteria 284
 - Using multiple fields for row headings..... 284
 - Adding aggregate columns 285
 - Getting data in order 286

***Book IV: Forms for Editing Data* 287**

Chapter 1: Designing Custom Forms (and Reports) 289

- Seeing How Forms and Reports Are Secretly Related 290
- Understanding Form Basics 290
- Making and Using a Form 293
 - Making the easiest possible form with the Form button..... 293
 - Viewing a form..... 294
 - Editing data in Form view 295
- Creating Forms with Wizards..... 296
 - Wizard, make me a form!..... 296
 - More super-speedy forms..... 299
- Modifying Existing Forms and Reports..... 300
- Getting Your Fields Lined Up in Layout View 301
 - Using a control layout to rearrange fields 302
 - Adding and deleting fields 302
 - Making a new form from scratch in Layout view..... 303
 - Adding and deleting rows and columns in the control layout..... 304
 - Controlling your control layouts 304
 - Trying out your new, improved form..... 305
- Configuring the Whole Form or Report 305
 - Naming the form 307
 - Seeing where records come from 307

Deciding the order of the records	308
Choosing one record or many.....	308
Using some other cool form properties.....	309
Applying a theme to a form or report	310
Storing Your Forms and Reports.....	310
Managing forms and reports	311
Importing forms and reports from other databases	311
Printing forms.....	312

Chapter 2: Jazzing Up Your Forms (and Reports)313

Creating New Forms Efficiently.....	313
Making All Kinds of Changes in Design View	314
Changing the layout of an existing form or report	315
Changing the size of a form	317
Taking Control of Your Form or Report	317
Understanding types of form controls.....	317
Making a new control by dragging a field.....	320
Making a new control by choosing a control	321
Setting control properties	321
Binding a control to data in the record source.....	322
Making Controls That Display Text, Numbers, and Dates	323
Making and editing labels	323
Adding hyperlink controls	325
Putting Short Text and Long Text fields in text boxes.....	325
Displaying Number, Currency, and Date fields	326
Breaking Out of the Control Layout	326
Removing the control layout.....	327
Moving or resizing a control	327
Neatening your controls	328
Renaming, Resizing, Deleting, and Copying Controls	330
Formatting Numbers and Dates.....	330
Choosing Fonts, Colors, and Other Decorative Touches	331
Copying your formatting.....	333
Making bad news red.....	333
Creating Check Boxes for Yes/No Fields	335
Adding Lines, Boxes, and Backgrounds.....	335
Controlling Cursor Movement in Your Form	336

Chapter 3: Creating Smarter Forms339

Creating and Configuring Combo and List Boxes.....	339
Making combo boxes the really easy way	341
Running the Combo Box and List Box wizards	341
Changing the properties of a combo or list box	344
Designing Cool Looks for Yes/No Fields.....	345
Creating Option Groups.....	345

Creating Command Buttons	348
Making a Close button.....	350
Making a button to display a related form	351
Making a button to print the current record.....	352
Making other cool buttons	353
Customizing your command button.....	353
Making a Find Box	354
Displaying Attachments.....	355
Adding Form Headers and Footers	357
Creating Tabbed Forms	358
You Can't Type That Here!.....	360
Making a Main Menu for Your Database.....	361
Creating a navigation form	361
Finding an alternative to navigation forms.....	362
Opening a form automatically when the database opens	363

**Chapter 4: Doing Calculations in Forms and Subforms
(and Reports)** **365**

Doing Elementary Calculations.....	365
Making a calculated control	366
Checking your expression	368
Troubleshooting expressions	368
Calculating and Formatting Numbers	369
Calculating and Formatting Dates	370
Calculating and Formatting Text	370
Displaying Values That Depend on Conditions	371
Formatting Calculated Controls.....	371
Using a Split Form to Display a Datasheet	372
Using a Subform to Display Detail Records.....	373
Creating a subform	374
Viewing the properties of subform controls	378
Adding Subtotals and Totals from Subforms.....	379
Using aggregate functions.....	379
Referring to a control on a subform	381
Creating the controls to total a subform	381

***Book V: Reporting in Words and Pictures*** **385**

Chapter 1: Creating and Spiffing Up Reports **387**

Knowing Forms Means That You Already Know Reports	388
Creating Reports Automatically	389
Making the easiest possible report	390
Running the Report Wizard	391
Editing Reports in Layout and Design View	396

Creating and Managing Report Sections	397
Setting report and section properties.....	399
Adding page headers, footers, and numbers	400
Grouping your records.....	402
Sorting the records in your report	405
Calculating group subtotals and report totals.....	406
Employing Formatting Tips and Tricks	407
Copying Forms to Reports.....	409
Adding and Formatting Subreports.....	409
Making a subreport.....	411
Printing information from a subreport on the main report	412
Displaying Empty or Long Fields	413
Displaying long text	413
Displaying fields that may be empty	413
Viewing Your Reports Onscreen	414

Chapter 2: Printing Beautiful Reports415

Viewing Your Report	415
Adjusting the view	417
Looking at lots of pages	417
Formatting the Page	418
Selecting a printer.....	418
Setting margins, paper size, and paper orientation	419
Controlling page breaks	420
Avoiding blank pages	421
Printing only the data.....	422
Printing the Report.....	422
Printing on an actual printer	422
Creating a PDF, XPS, HTML, or other file of your report	423
Creating Mailing Labels	424
Running the Label Wizard.....	425
Behind the scenes in a mailing-label report	427
Changing the page setup for labels	428
Sending a Report to Another Application	429
Exporting your report to Microsoft Excel.....	429
Exporting your report to Microsoft Word	430
E-mailing your report in Microsoft Outlook	431
Exporting your report in other formats	432
Automating your exports.....	432

Chapter 3: Creating Charts and Graphs from Your Data435

Pulling Up a Seat at the Data Bar	435
Displaying Information with Charts	437
Creating charts with the Chart Wizard	438
Making bar charts	443
Making line and area charts	446
Making pie and doughnut charts	448
Making bubble and XY scatter plots	450

Changing Your Charts	451
Modifying an existing chart	451
Formatting charts with colors, legends, and titles	453
Changing how data is graphed.....	454
Changing which data is charted.....	455

Book VI: Automation with Macros..... 457

Chapter 1: Making Macros Do the Work459

Introducing Macros	460
Creating and Editing Stand-Alone Macros	460
Naming, saving, and editing macros.....	461
Taking action	462
Specifying arguments to actions.....	464
Moving your actions around	464
Adding comments.....	465
Creating subroutines in macros: Submacros	465
Running Stand-Alone Macros and Submacros	467
Running a macro when the database opens	467
Assigning macros to keys	468
Opening Databases That Contain Macros	469
Keeping a macro from turning into a virus.....	470
Putting your database in a safe place	470
Signing your database	472
Knowing which actions you can take.....	474
Telling Access to “Run This Only If I Say So”	474
If-Then macros	475
If-Then-Else macros	476

Chapter 2: Making Macros Smarter477

Attaching Macros to Tables	478
Running data macros.....	478
Creating a data macro	478
Trying cool data-macro tricks	481
Running Macros in Forms.....	482
Running a macro when a form event happens.....	482
Creating command buttons on forms	484
Referring to form controls in macros.....	485
Printing matching records from a form	486
Changing the Way Your Form Looks Dynamically	487
Setting the properties of form controls	487
Hiding unneeded controls on a form.....	488
Setting Up Your Own Main-Menu Form	490
Creating a form that appears when the database opens.....	490
Creating command buttons for your main-menu form.....	491
Using Temporary Variables in Macros	494

Book VII: Database Administration 497

Chapter 1: Database Housekeeping499

Compacting and Repairing Your Database	499
Making Backups	500
Backing up a whole database	500
Backing up part of a database.....	501
Converting Databases	503
Analyzing and Documenting Your Database.....	504
Viewing relationships in the Relationships window	504
Viewing object dependencies.....	505
Analyzing database performance	506
Documenting your database	508
Loading and Managing Add-Ins.....	508

Chapter 2: Sharing the Fun: Managing Multiuser Access511

Putting Your Database Where People Can See It	512
Splitting Your Database into a Front End and a Back End	513
Why split?	513
Let's split!.....	514
Handing out front ends	516
Relinking your tables.....	517
Editing with Multiple Users	518
Fixing exclusive access	518
Managing record-locking	519
Programming locks.....	521

Chapter 3: Securing Your Data523

Observing Basic Windows Security	523
Controlling What Happens When You Open the Database.....	524
Password-Protecting and Encrypting Your Database.....	528
Encrypting your database with a password.....	528
Opening a password-protected database.....	529
Decrypting a database.....	529
Locking Up Your Database As an .accde File.....	529
Creating an .accde file	530
Making updates later.....	530
Using the Trust Center.....	532

Book VIII: Programming in VBA 535

Chapter 1: What the Heck Is VBA?537

Getting Acquainted with VBA Code	537
Opening a class module.....	538
Creating or opening a standard module	539
