Jill—my wife, my muse, and my raison d'être—I write for you.

Contents at a Glance

About the Author xvii
About the Technical Reviewer xix
Acknowledgments xxi
Introduction xxiii

PART 1 ■■■ OOP and Patterns

■ **CHAPTER 1** Abstract Classes, Interfaces, and Programming by Contract 3
■ **CHAPTER 2** Static Variables, Members, and Methods 11
■ **CHAPTER 3** Singleton and Factory Patterns 21
■ **CHAPTER 4** Exceptions 31
■ **CHAPTER 5** What's New in PHP 6 41

PART 2 ■■■ Testing and Documentation

■ **CHAPTER 6** Documentation and Coding Conventions 55
■ **CHAPTER 7** Reflection API 73
■ **CHAPTER 8** Testing, Deployment, and Continuous Integration 105

PART 3 ■■■ The Standard PHP Library (SPL)

■ **CHAPTER 9** Introduction to SPL 127
■ **CHAPTER 10** SPL Iterators 143
■ **CHAPTER 11** SPL File and Directory Handling 163
■ **CHAPTER 12** SPL Array Overloading 179
■ **CHAPTER 13** SPL Exceptions 189

PART 4 The Model-View-Controller (MVC) Pattern

CHAPTER 14 MVC Architecture 201

CHAPTER 15 Introduction to the Zend Framework 215

CHAPTER 16 Advanced Zend Framework 235

CHAPTER 17 The Zend Framework Applied 259

PART 5 Web 2.0

CHAPTER 18 Ajax and JSON 273

CHAPTER 19 Introduction to Web Services with SOAP 285

CHAPTER 20 Advanced Web Services 299

CHAPTER 21 Certificate Authentication 313

INDEX 329

Contents

About the Author xvii
About the Technical Reviewer xix
Acknowledgments xxi
Introduction xxiii

PART 1 ■■■ OOP and Patterns

■CHAPTER 1 Abstract Classes, Interfaces, and Programming by Contract 3

Abstract Classes 3
Interfaces 6
The instanceof Operator 8
Programming by Contract 9
Just the Facts 10

■CHAPTER 2 Static Variables, Members, and Methods 11

Static Variables 11
Static Usage in Classes 12
Static Members 12
Paamayim Nekudotayim 13
Static Methods 16
The Static Debate 18
Just the Facts 18

■CHAPTER 3 Singleton and Factory Patterns 21

Responsibility and the Singleton Pattern 21
The Factory Pattern 23
The Image Factory 24
The Portable Database 27
Just the Facts 29

CHAPTER 4 Exceptions 31

Implementing Exceptions 31
Exception Elements 31
Extending Exceptions 34
Logging Exceptions 35
Logging Custom Exceptions 35
Defining an Uncaught Exception Handler 36
Exception Overhead 37
Error Coding 37
Type Hinting and Exceptions 38
Rethrowing Exceptions 39
Just the Facts 40

CHAPTER 5 What's New in PHP 6 41

PHP Installation 41
Unicode in PHP 6 44
Unicode Semantics 44
Unicode Collations 46
Namespaces 47
Late Static Binding 48
Dynamic Static Methods 50
Ternary Assignment Shorthand (ifsetor) 50
XMLWriter Class 50
Just the Facts 52

PART 2 Testing and Documentation

CHAPTER 6 Documentation and Coding Conventions 55

Coding Conventions 55
PHP Comments and Lexing 57
Types of Comments 57
More About Doccomments 57
Lexing 58
Metadata 58
PHPDoc 59

DocBook 62
Creating an XML File for DocBook 62
Parsing a DocBook File 63
Using DocBook Elements 67
Just the Facts 71

CHAPTER 7 Reflection API 73

Introducing the Reflection API 73
Retrieving User-Declared Classes 74
Understanding the Reflection Plug-in Architecture 76
Parsing Reflection-Based Documentation Data 81
Installing the Docblock Tokenizer 81
Accessing Doccomment Data 82
Tokenizing Doccomment Data 83
Parsing the Tokens 84
Extending the Reflection API 86
Integrating the Parser with the Reflection API 86
Extending Reflection Classes 88
Updating the Parser to Handle In-Line Tags 96
Adding Attributes 99
Just the Facts 102

CHAPTER 8 Testing, Deployment, and Continuous Integration 105

Subversion for Version Control 105
Installing Subversion 106
Setting Up Subversion 106
Committing Changes and Resolving Conflicts 108
Enabling Subversion Access 110
PHPUnit for Unit Testing 110
Installing PHPUnit 110
Creating Your First Unit Test 111
Understanding PHPUnit 112
Phing for Deployment 115
Installing Phing 115
Writing a Phing Deployment Script 116
Xinc, the Continuous Integration Server 118
Installing Xinc 118
Creating the Xinc Configuration File 119
Starting Xinc 120

Xdebug for Debugging 120
Installing Xdebug 120
Tracing with Xdebug. 121
Profiling with Xdebug 123
Checking Code Coverage with Xdebug 123
Remote Debugging with Xdebug. 124
Just the Facts 124

PART 3 The Standard PHP Library (SPL)

CHAPTER 9 Introduction to SPL 127

SPL Fundamentals 127
Iterators 128
Iterator Interface 128
Iterator Helper Functions 129
Array Overloading 130
ArrayAccess Interface 130
Counting and ArrayAccess. 131
The Observer Pattern 131
Serialization 135
SPL Autoloading 137
Object Identification 140
Just the Facts 141

CHAPTER 10 SPL Iterators 143

Iterator Interfaces and Iterators 143
Iterator Interfaces 143
Iterators 146
Real-World Iterator Implementations 158
Parsing XML with SimpleXML 158
Accessing Flat-File Databases with DBA 159
Just the Facts 161

CHAPTER 11 SPL File and Directory Handling 163

File and Directory Information 163
Iteration of Directories 166
Listing Files and Directories 166
Finding Files 168
Creating Custom File Filter Iterators 169

SPL File Object Operations 171
File Iteration 172
CSV Operation 172
Searching Files 176
Just the Facts 177

CHAPTER 12 SPL Array Overloading 179

Introducing ArrayAccess 179
Introducing ArrayObject 180
Building an SPL Shopping Cart 182
Using Objects As Keys 184
Just the Facts 188

CHAPTER 13 SPL Exceptions 189

Logic Exceptions 189
Runtime Exceptions 191
Bad Function and Method Call Exceptions 192
Domain Exceptions 192
Range Exceptions 193
Invalid Argument Exceptions 194
Length Exceptions 194
Overflow Exceptions 195
Underflow Exceptions 196
Just the Facts 198

PART 4 The Model-View-Controller (MVC) Pattern

CHAPTER 14 MVC Architecture 201

Why Use MVC? 201
MVC Application Layout 203
From the Web Server 203
Actions and Controllers 203
Models 203
Views 203

Criteria for Choosing an MVC Framework 204
Architecture of the MVC Framework..... 204
MVC Framework Documentation 204
MVC Framework Community..... 205
MVC Framework Support..... 205
MVC Framework Flexibility 205
Roll Your Own MVC Framework 205
Setting Up a Virtual Host 206
Creating an MVC Framework..... 207
Just the Facts 213

CHAPTER 15 Introduction to the Zend Framework 215

Setting Up the Zend Framework 215
Installing the Zend Framework 215
Creating a Virtual Host 216
Bootstrapping 217
Creating Controllers, Views, and Models 219
Adding an Index Controller..... 219
Adding a View 220
Defining Models 221
Adding Functionality 224
Using the Request and Response Objects 224
Using Built-in Action Helpers..... 226
Using Built-in View Helpers 227
Validating Input 229
Just the Facts 233

CHAPTER 16 Advanced Zend Framework 235

Managing Configuration Files 235
The Array Approach 235
The INI Approach 236
The XML Approach 237
Setting Site-Wide View Variables 237
Sharing Objects 238
Error Handling 238
Application Logging 239

Caching 241
Caching Security Considerations 241
Caching Techniques 242
Authorizing Users 245
Using JSON with PHP 248
Customizing Routes 249
Managing Sessions 251
Sending Mail 252
Creating PDF Files 253
Creating New PDF Pages 254
Drawing on PDF Pages 254
Integrating with Web Services 256
Just the Facts 257

CHAPTER 17 The Zend Framework Applied 259

Module and Model Setup 259
Conventional Modular Directory Structure 259
Model Libraries and Zend_Loader 260
The Request Cycle 261
Creating Plug-ins 262
Creating Helpers 263
Writing Action Helpers 263
Writing View Helpers 264
Implementing Access Control 265
Using a Two-Step View 267
Creating a Master Layout 267
Using Placeholders 268
Just the Facts 270

PART 5 **Web 2.0**

CHAPTER 18 Ajax and JSON 273

JSON and PHP 273
The JSON Extension 274
JSON in the Zend Framework 275
JSON and JavaScript 276
The XMLHttpRequest Object 278

Some Ajax Projects 280
GET Requests 280
POST Requests 281
Just the Facts 284

CHAPTER 19 Introduction to Web Services with SOAP 285

Introduction to the PHP Web Services Architecture 285
Introduction to WSDL 286
WSDL Terminology 286
A WSDL File 287
Introduction to SOAP 289
Using the PHP SOAP Extension 290
SoapClient Class Methods and Options 291
SoapServer Class Methods and Options 294
A Real-World Example 295
Just the Facts 297

CHAPTER 20 Advanced Web Services 299

Complex Types 299
A Complex Type Example 299
Class Mapping. 304
Authentication 305
HTTP Authentication 305
Communicated-Key Authentication 306
Client-Certificate Authentication 306
Sessions 306
Objects and Persistence 308
Binary Data Transmission 309
Just the Facts 311

CHAPTER 21 Certificate Authentication 313

Public Key Infrastructure Security 313
Certificate Authority 313
Web Server Certificate 314
Client Certificate 314
Root CA Certificate 314

Setting Up Client Certificate Authentication 315
Creating Your Own Certificate Authority. 315
Create a Self-Signed Web Server Certificate. 317
Configuring Apache for SSL. 319
Creating the Client-Side Certificates 320
Permitting Only Certificate Authentication 323
Testing the Certificate 324
PHP Authentication Control 325
Binding PHP to a Certificate. 325
Setting Up Web Service Authentication 325
Just the Facts 327

INDEX 329

About the Author

KEVIN MCARTHUR is an open source developer, residing in British Columbia, Canada. He is a self-taught entrepreneur and has been running a very successful PHP application development studio for more than eight years. His company, StormTide Digital Studios, has worked with industry in the United States and Canada to provide scaling solutions for web statistics, VoIP, and print automation. An avid IRC user, Kevin helps to administer one of the largest PHP support organizations, PHP EFnet.

Kevin's contributions to open source projects, including the Zend Framework, have made him a well-known authority in the industry. He has written several articles for PHPRiot.com on topics such as reflection, the Standard PHP Library, object-oriented programming, and PostgreSQL.

About the Technical Reviewer

JEFFREY SAMBELLS is a graphic designer and self-taught web application developer, best known for his unique ability to merge the visual world of graphics with the mental realm of code. After obtaining his Bachelor of Technology degree in graphic communications management with a minor in multimedia, Jeffrey enjoyed the paper-and-ink printing industry, but he soon realized the world of pixels and code was where his ideas would prosper.

Jeffrey has previously published articles related to print design and has contributed to award-winning graphical and Internet software designs. His latest book, *AdvancED DOM Scripting* (friends of ED, 2007; 1-59059-856-6, `http://advanceddomscripting.com`), was an instant success. In late 2005, Jeffrey became a PHP 4 Zend Certified Engineer. He updated the certification to PHP 5 in September 2006 to become one of the first PHP 5 Zend Certified Engineers! Jeffrey also maintains a blog at `http://jeffreysambells.com`, where he discusses his thoughts and ideas about everything from web development to photography.

Jeffrey currently lives and plays in Ontario, Canada, with his wife Stephanie, his daughter Addison, and their little dog Milo.

Acknowledgments

This book is based upon a decade of innovation by a community of thousands of developers. I would like to thank each of them, and offer this book as a modest contribution to our great work.

I would like to thank David Fugate for giving me the opportunity and guidance needed to write this book.

Thank you to Michael Geist, whose actions and advice have allowed me to achieve real change in the face of tremendous adversity.

I also have to thank my friends and family for their support. Without you, I could never have achieved so much.

Finally, to everyone at Apress who made this book possible, and who have helped many other writers to publish high-quality publications: you have my sincerest thanks. Without all of you, this book would never have been written.
