

THIDWICK

The Big- Hearted Moose

Written
and illustrated by **Dr. Seuss**

RANDOM HOUSE
NEW YORK

Uppå berget, på fjället, på höjden och där
dessa fjällbjörnar lever, som de alltid har.
Ännu i gamla skuggor och
ljudet från fjällens berg och dalar.

1. The reindeer
 is a very hardy
 animal. It can
 live in the
 coldest parts
 of the world.
 It has large
 antlers which
 are made of
 bone. The
 reindeer is
 very useful
 to the people
 of the north.

 very useful
 to the people
 of the north.

When the dragon saw the knight
and the knight saw the dragon
he said, "You are not a knight
Who can fly so fast? You are a dragon!
You look like a dragon and you
are breathing fire! You are a dragon!
I am a knight and I am
fighting you!"

And the dragon
said to the knight

The knight said to the dragon
"You are a dragon and you are
breathing fire!"

It is the growth of the antlers
that is the most interesting part
of the life of a deer. The velvet
grows on the antlers and
keeps them soft and pliable.

The velvet is shed and the antlers
become hard and smooth. It is
the shedding of the velvet
that is the most interesting part
of the life of a deer.

Stanza 1
The reindeer is standing on the bank
Of a frozen stream, with its antlers
Large and dark, and its eyes
Bright and keen, and its nose
Red and wet, and its breath
White and cold, and its hooves
Soft and sure, and its gait
Light and swift, and its sound
Soft and low, and its voice
Sweet and clear, and its song
Soft and low, and its voice
Sweet and clear, and its song

Stanza 2
The reindeer is standing on the bank
Of a frozen stream, with its antlers
Large and light, and its eyes
Bright and keen, and its nose
Red and wet, and its breath
White and cold, and its hooves
Soft and sure, and its gait
Light and swift, and its sound
Soft and low, and its voice
Sweet and clear, and its song
Soft and low, and its voice
Sweet and clear, and its song

1. The rooster is the male of the species.
2. The hen is the female of the species.
3. The rooster is the one that crows.
4. The hen is the one that lays the eggs.

1. The man is the male of the species.
2. The woman is the female of the species.
3. The man is the one that works.
4. The woman is the one that cooks.

There is a small figure in the center,
A small figure in the center,
A small figure in the center.

There is a small figure in the center,
A small figure in the center.

There is a small figure in the center,
A small figure in the center,
A small figure in the center,
A small figure in the center,
A small figure in the center,
A small figure in the center.

For the first time in the world
The birds of the air were all together
And they were singing a song
That had never been heard before
The birds of the air were all together
And they were singing a song
That had never been heard before
The birds of the air were all together
And they were singing a song
That had never been heard before

The bear is a very large animal
The bear is a very large animal
The bear is a very large animal
The bear is a very large animal

The bear is a very large animal
The bear is a very large animal
The bear is a very large animal
The bear is a very large animal

Thou shalt not have a silver image
or a golden image, or any likeness
of any thing that is in heaven above,
or that is on the earth, or that is
under the earth;

Thou shalt not bow down
to them, nor serve them: for I
the Lord thy God am a jealous God,
visiting the iniquity of the fathers
upon the children unto the third
and fourth generation.

1. The first step is to identify the main components of the system. This involves a thorough review of the system's architecture and the roles of each component. The next step is to determine the data flow between these components, which is essential for understanding how the system operates as a whole.
