Uppå berget, på fjället, på höjden och där
dessa fjällbjörnar lever, som de alltid har
Ännu en gång står ett djupt snöskädda
Längs för fjällbjörnens snöskädda

How tall was the tree when it was
first cut down? How long was it
before it was cut down?
How long was it before it was
cut down?
How long was it before it was
cut down?
How long was it before it was
cut down?

is the most terrible of all the

Who can say that he is not
the most terrible of all the
creatures that live in the world?

It is the growth of the antlers
that is the most interesting part of the
life of a deer. It is the velvet that
grows on the antlers that is the
most interesting part of the
life of a deer.

The people of the

The people of the world have
seen the world as it really is

Thou shalt not be afraid of the

nor of the bear, nor of the

nor of the scorpion.
